Product Design and Development. Web, Tablet, Phone, eReader.  
The authors studied a team of mattress assembly workers who were being taught to improve their problem-solving skills by redesigning their own work.

The economic success thus spurred was sustained because the government became  
The south forged a society that created incentives, rewarded innovation, and allowed everyone to participate in economic opportunities. When a person needs a part, for example, there is no confusion over who will provide it, how the request will be triggered usually with a kanban card or what part will be delivered.

Rather than designing novel management practices, they portrayed scientific  
me on this computer.
