A couple complaints i have about this book is it reads like the writers took a bunch of news articles and put them into this book in their own words. Each of the extraordinary dogs truly demonstrates the meaning of love, as their devotion and good deeds illustrate the very real bond between dogs and people.

A couple of the entries were fascinating, but not. Stories about dogs who did Four-Legged Miracles will tug on readers' heartstrings, but it will also discuss common reasons dogs disappear, how to get a missing dog back faster, the dog-human bond, and the science behind some of the amazing journeys these dogs endure. Luckily the stories have happy endings, whether those endings occurred or not you will be amazed at how some of these pets survived in order to be reunited with their loved ones. About Brad Steiger.
